Follow Your Dream

Lead By Example

14th February 2019

Dear Parents/Carers,

Bedrock Learning have invested in a brand-new platform to improve outcomes for children and to narrow the vocabulary gap. The site is ready, complete with some incredible new features, such as the ever-evolving vocabulary notebook.

From the evening of Monday 18th February, our school data will be migrated to the new site. On 19/02/19, Bedrock will issue usernames and passwords for the new site. These will be given out in school on Monday 25th February.

Children need to continue using the current site up until Sunday 17th February.
<https://portal.bedrocklearning.org/>

Please note that only fully completed topics will be migrated into the new site. If a topic is partially completed, pupils will have to restart it so that Bedrock can capture the pre test data into the new reteaching algorithm. Therefore, I have removed the 48 hour block to enable all children to fully complete a topic, including the post test. Once your child has completed the post-test, please do not allow them to do any more Bedrock online lessons until they have received their new password on Monday 25th February.

Children will have until 17th February to complete a topic. After this date, any partially completed topics will be lost and these will need to be completed again on the new site.

The link to the new site which can be accessed from Monday 25th February once usernames and passwords have been distributed is:

<https://app.bedrocklearning.org/>

If you have any questions regarding Bedrock, please speak to your child's class teacher or alternatively, Mrs Cockerill.

Kind regards

Mrs J. Cockerill
Deputy Headteacher

Mrs D. Reynolds
Headteacher
