Dear Parents/Carers

It is part of the school's policy, approved by Governors, to provide a course of sex and relationship education for children in primary school. Over the course of the next few weeks year 5 will be looking at puberty and the changes that the body goes through at this time.

It is intended that our contribution is only part of the development of your child's understanding. We also firmly believe that there can be no substitute for the close relationship between parent/carer and child, in which sensitive and important issues such as this can be discussed.

This is part of the Science curriculum which requires children to learn about the changes in humans from birth to old age.

The school nurse will also be coming in to talk to the girls separately in relation to this topic.

Parents/Carers are welcome to discuss this with me if there are any queries or questions.

Yours sincerely

Miss M Hodgkins  
Year 5 Class Teacher

Mrs D Reynolds  
Head Teacher
