

To the Owner/Occupier,

Gigabit-speed broadband is coming to your street

Enter Walk only

CityFibre, in partnership with Vodafone, is bringing gigabit-speed internet connectivity to the doorstep of every home and business in Peterborough through the expansion of its state-of-the-art full fibre network.

We are making contact to advise you that our teams will soon be installing the network in your street. This activity will involve some construction outside your home but don't worry, you will be able to access your property throughout the build.

The works will be carried out by our construction partner Granemore Group and are scheduled to start in your area within the next 7 days, please avoid parking on the pavement during construction.

Our team's working hours have been agreed with the local council in each area of the city. Some of our working hours may fall on evenings or weekends, but no loud works will be started until after 8am. The works usually take no longer than a couple of days outside each home.

You can get in contact by calling us on **0800 083 6160**, speaking to a site supervisor dressed in orange, or by visiting cityfibre.com/contact-us.

Getting connected

Vodafone will be in touch with you once your home is ready to be connected. In the meantime, you can see the Vodafone Gigafast Full Fibre Broadband packages and register your interest at vodafone.co.uk/Gigafast/register

We hope you are as excited as we are about the benefits of this revolutionary network.

Yours faithfully,
CityFibre Operations Team
