

We've missed you!

We are all so excited to see you. Our school has been very quiet without you.

In September, you will be in your new class. The adults are really looking forward to seeing you all.

Staying safe

As you know there is a virus that has made some people poorly. We need to keep everyone safe at school.

We will have to: wash our hands, try to stay away from people in other classes and keep the classrooms clean.

What will be the same?

Lots of the adults at school are the same.

Your friends!

Wearing your school uniform.

School looks the same apart from lots of 2 metre tape on the floor!

What will you be able to do at school?

- Learn new things
- Play with your friends from your class
- Play on the field, playground and the trim trail or the MUGA

What will be different?

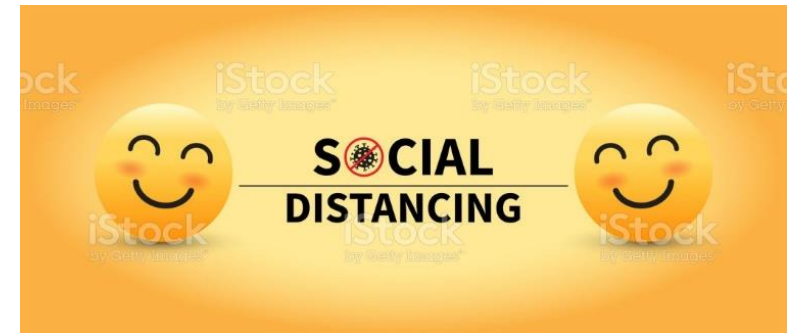

No assemblies in the hall- We will have assemblies in the classroom.

If you have a packed lunch or a High Five, you will eat in the classroom.

If you have a school dinner, you will eat in the hall.

What will be different?

School will start and finish at different times for each class but everyone will be at school for the same amount of time.

Each class will come into school through a particular gate.

This is so that there are not too many people together on the playground or on the paths so that we can walk separately from people who are in another family.

What will be different?

We've changed the names of the classrooms so that we don't have to move lots of furniture over the Summer and some of you can stay in the same classroom as before.

From Year 2 to Year 6, the classroom tables and chairs are set up in rows. This is so that you don't have to be face to face with anyone.

Reception

Reception class will stay the same with areas for learning inside and outside. We will wash the toys and areas that are touched everyday.

Year 1

Year 1 is next door to the Reception classroom.

It is set up with learning areas just like Reception class.

Sometimes you will be able to choose your learning job and sometimes you will be asked to do an adult job, just like you did in Reception.

The Year 1 cloakroom door opens up into the Reception outdoor area. You will be able to use this space too. Miss Greenwood knows you all very well and will help to keep you happy and safe.

Year 2

The teachers in Year 2 have been talking to you on Zoom and have loved meeting you all.

Mrs Fenwick will be in Year 2 with you to help you to feel happy and safe.

Year 3 (old Year 4 classroom)

Year 3 is at the back of school. Go past the bike shed and past Year 6 until you reach the cage with the football goals.

Miss Johnson loved meeting you all on Zoom. Mrs Gill knows you all very well and will be there to help you.

This is the Year 3 cloakroom door.

Year 4

Year 4 are in the same classroom as when they were in Year 3. The only difference is that the tables and chairs are now in rows.

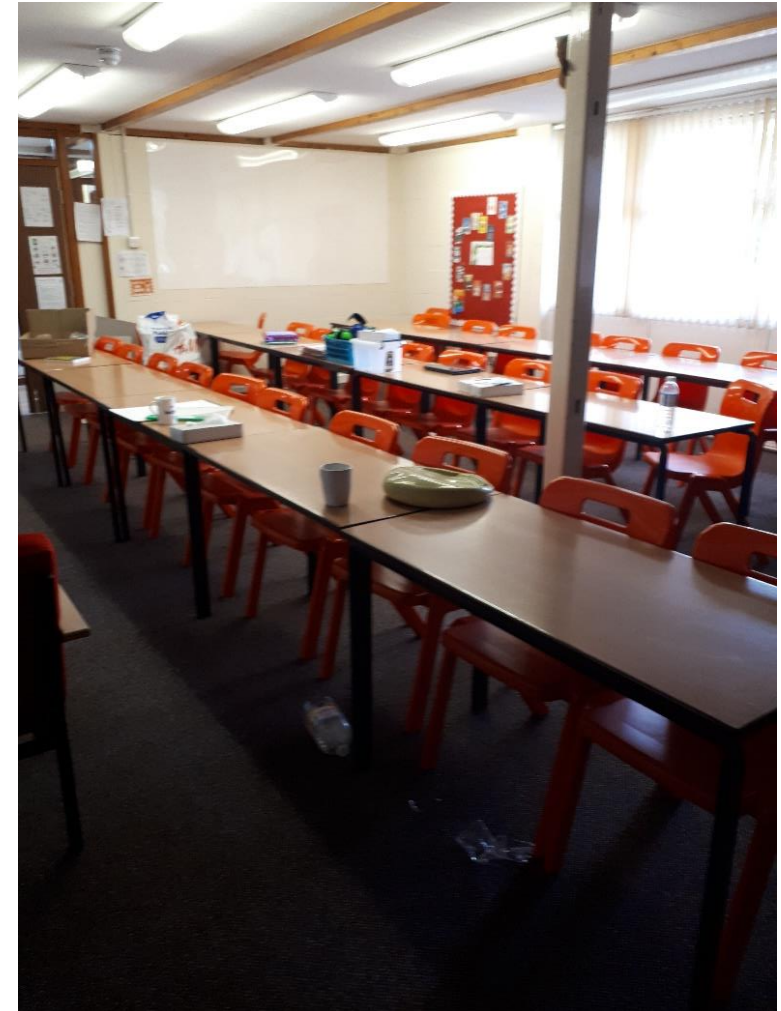

Mr Thompson has missed you all and can't wait to see you again!

Year 5

The Year 5 cloakroom door is on the main playground opposite the trim trail. This used to be the Year 6 classroom.

The class adults loved seeing you all on Zoom and you will remember Mrs Thornburn from when you were in Key Stage 1!

Year 6

Year 6 are in the same classroom as you were when you were in Year 5. Miss Hodgkins knows you all so well and can't wait to see you all again!

Stay positive

It's been a long time since some of you have been at school. There have been some changes during lockdown but for September, we're almost back to normal.

So remember...

Most of school looks exactly the same.

Most of the adults are the same.

You are allowed to play with the children in your class.

Adults will help you with your learning.

And best of all...

...you can see your friends!!!!
