Spring 1- 2021

SENCo — Mrs J Cockerill

So here we are in a new lockdown. I recognise that many of you will be worried about the impact on your child/children's learning and emotional well-being.

It may be difficult to motivate your child to learn or maintain their focus to complete tasks. You may need to attempt tasks in a different way or have a different focus.

- Choose a space to learn and keep this the same each time.
- Try to keep to a routine as most children like to know what is going to happen and when.
- Give short goals throughout the task e.g. we'll do two more and then have a break for 5 minutes.
- Draw pictures to help their understanding.
- Prioritise key skills such as times tables and reading.

Teacher's will be providing learning that is suitable for your child. However, if you and your child are finding it too difficult, please make contact so that the learning can be adjusted.

Changing Background Colour on your Device

For children who usually use a coloured overlay in school, you might like to try altering the colour of the screen on your home devices.

There are a range of screen tint apps available including:
Apps for phones and tablets

Tint Vision

Irlen Coloured Overlay App

PCs and Windows: Tint and Track - free 30 day trial
