

Dear Mrs Reynolds and Mrs Cockerill,

We are writing to you because Wednesday 8th June is World Ocean Day. As you know, Year 4 have been learning about plastic pollution and are passionate about saving our oceans. 70% of our world is ocean which means only 30% is land. Without our oceans, we would not have much of what we love, such as drinks, marine life and exceptional coral reefs.

We were wondering if we could wear mufti on Wednesday 8th June, asking all pupils to come in something blue for a £1 donation. This money will go to WWF who are working tirelessly to save our oceans.

We can't afford to lose our seas because so many people and animals rely on it. If we do not act now, by 2050 it is estimated that there will be more plastic in our oceans than people on Earth.

Please allow our school to do our bit to save our waters and many animals. So many fish rely on our coral reefs and micro plastics are getting stuck, rotting and making their home inhabitable. How would you feel if you did not have a home to live in?

Please let us know once you have decided.

Many thanks

Year 4
