## Talk tips for days out.

### Walk and talk.

Have a conversation with your child about what you see as you're walking around. Ask open-ended questions so that the answer is not just a yes or a no. Ask your child what they think about a building, animal or view.

### Introduce new words into the conversation.

If you use a new word, explain what it means and keep using it as you talk to your child.

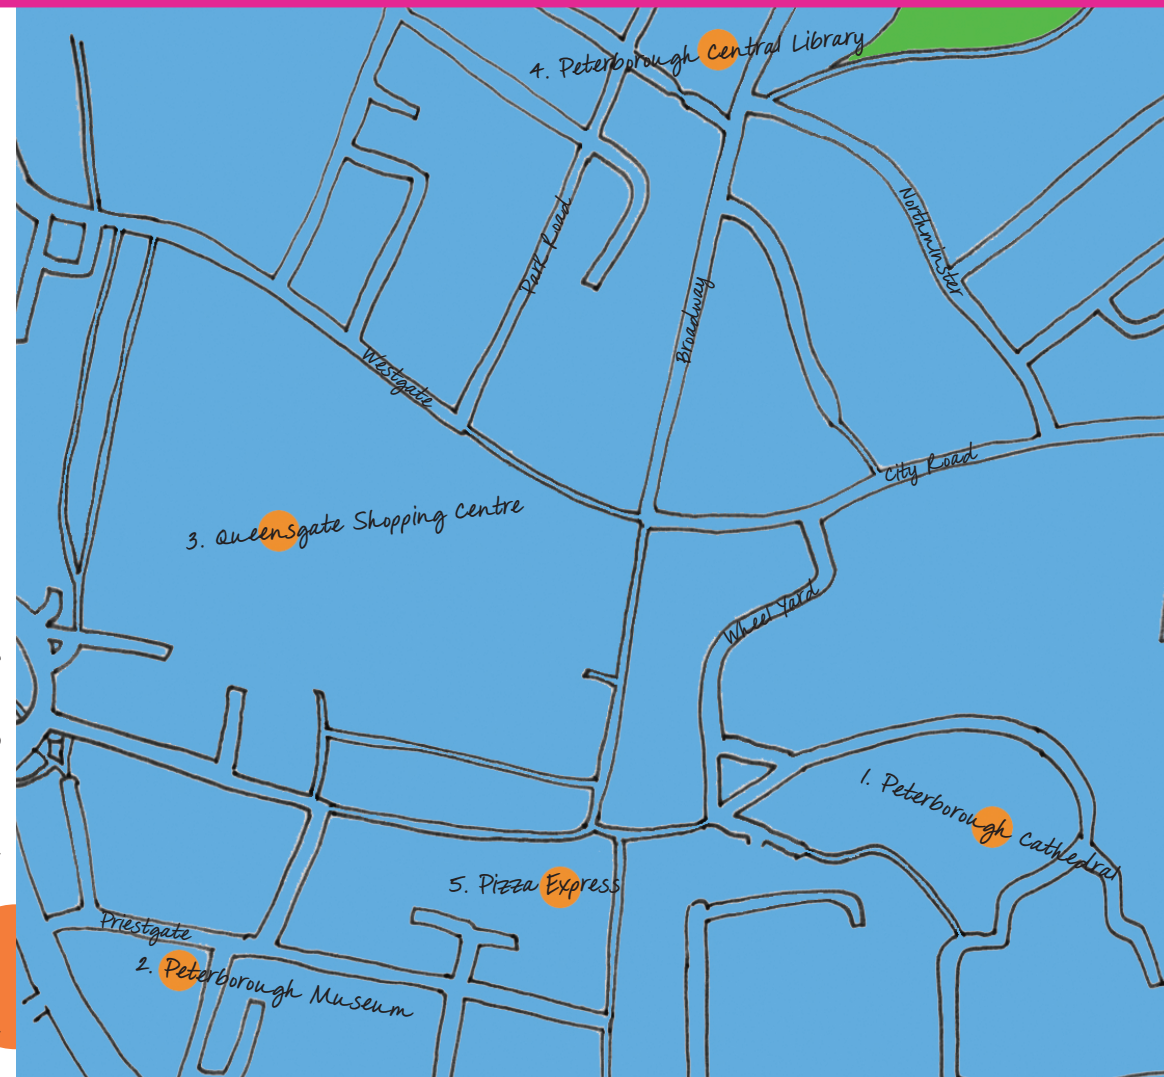

### Talk to your child in the language you know best.

A child benefits from learning a language from their parents if their parents are confident speaking it.

### Talk about the day on your way home.

Ask your child what part of the trail they enjoyed most and the best things they saw.
