

Dear Parent/Carer,

Following on from the launch of the Family Maths Home Learning on 23rd September, we would like to invite you our next workshop. **'Help Your Child Love Maths!'**

As you may be aware, this year the school is working with the independent charity National Numeracy on an exciting project which encourages children and families to do maths together. As part of this, we have been using National Numeracy's Family Maths activities and scrapbooks – and now there are more ways for parents and carers to get involved.

We know that maths can sometimes seem daunting but engaging positively with children's learning can make a big difference to both children's and parents' confidence with numbers.

Therefore, we are inviting all parents and carers to a unique workshop, **'Help Your Child Love Maths!'** held at the Norwood. There are two sessions to choose from:

Session 1 – Monday 19th October 2026 2.15pm-3.00pm

Session 2 – Wednesday 21st October 2026 3.15pm-4.00pm

The workshop is not a maths lesson, nor does it teach any maths, but it is focused on **fostering positive attitudes towards numeracy** and tips for ensuring your children develop these too. This is critical to their success in building strong numeracy skills. The session will cover the importance of maths in the real world, being positive about maths and how to boost your own number skills.

In previous Family Maths Workshops in other primary schools across the country, 96% of parents and carers said that following the workshop they would feel more able to support their child with maths learning, and 96% said the workshop had given them a more positive view of maths.

We hope that you take the opportunity and make the most of this exciting project.

Please reply using the slip below, ticking the session you wish to attend,

Kind Regards,

Mr Reynolds

Maths Lead
