

Digital Inclusion Peterborough

Let's get online...

What are we doing...?

Digital Inclusion Peterborough is a council-led project which, in part, aims to support individuals to get online and help them with their technology questions.

Some of the things you can do online:

- Connect with family and friends.
- Find information on health, wellbeing and local GP services.
- Access school information, Ofsted reports, reviews and tools for parents.
- Order shopping online or catch-up with your favourite TV shows.

- Do you need some help with the internet?
- Do you have friends or a family member that wants to brush up on their skills?

Get in touch – we're here to help!

Call us or find us on Facebook.
